Trade Fair for professional cutting technology

CUTTING WORLD 2025 is platform for innovative cutting technologies

Leading companies showcase their innovations at Messe Essen

From May 6 to 8, 2025, Messe Essen will once again become the center of cutting technology as CUTTING WORLD provides a unique stage for industry experts and companies to exchange ideas. In the modern glass foyer of the East Messe building, renowned manufacturers will present their latest developments in Industry 4.0, AI and sustainable cutting solutions.

Exhibitors at CUTTING WORLD 2025 include leading companies such as Air Liquide Deutschland, ESAB, Hypertherm, BFT Pumpen and Maximator Jet. They will showcase cutting-edge technologies that shape the future of the cutting industry. The close integration of the trade fair and congress not only provides visitors with in-depth expertise but also offers practical solutions.

Focus on Sustainability and Networking

One company that particularly benefited from the previous CUTTING WORLD in 2023 is BFT Pumpen. Managing Director Philipp Aichhorn explains: "Participating in CUTTING WORLD 2023 was a fantastic opportunity for us. The event was excellently organized and provided the perfect platform to present our latest products and innovations. The intensive and valuable discussions we had with both existing and potential customers were especially noteworthy. CUTTING WORLD is an ideal place for us to establish new contacts and strengthen existing relationships. We are already looking forward to the next event and are excited about more inspiring encounters and developments!"

The ongoing digitalization and automation of the industry will define the future of cutting technology. The concurrent DEUTSCHE SCHNEIDKONGRESS® will
